PROFILE

A professional Front-End Web Developer, responsibly creating website designs by using coding and markup languages such as HTML5, CSS3, Bootstrap, Material-UI JavaScript & Reactjs. Now working as a freelancer, I am applying my expertise in designing user interactions on the web application.

SKILLS

- HTML5
- CSS3
- Bootstrap
- Material UI
- Java script
- React.js
- Microsoft World

PROJECTS

PORTFOLIO WEBSITE USING REACT JS

It is my own portfolio website and also my first ever task. This helps me to enhance CSS3 Bootstrap learnings
tehsin-portfolio.netlify.app

PANDAMAX FREELANCE PROJECT

I have developed the frontend in React JS of Pandamax. It was related to NFT marketplace.
pandamax-freelance-project.netlify.app

STOCK FOOTAGE

I have developed the frontend in React JS of Stock Footage. It was related to sections of the film marketplace. This helps me to enhance my learning of CSS3 and Bootstrap.
get-stock-footage.netlify.app

E-COMMERCE WEBSITE

I have developed it in Material and UI React JS. It helps me to enhance my learning of CSS3 and Material UI.
